## The Old Buildings of the Cape

*By Hans Fransen*

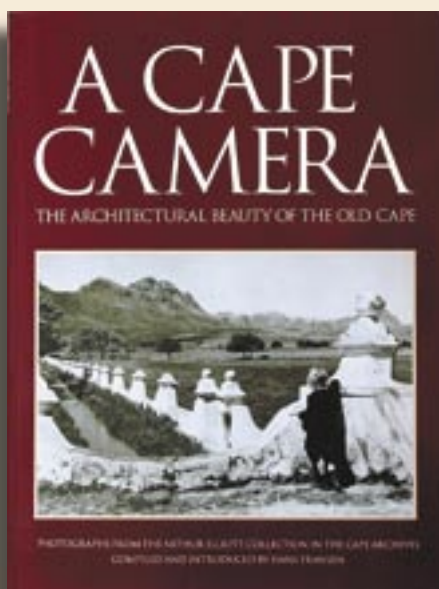

The completely revised, expanded and updated successor to the classic by Mary Cook and Hans Fransen, long out of print. *A Guide to the Old Buildings of the Cape* contains descriptions of over 5 000 buildings, illustrated with some 700 black-and-white photographs by Arthur Elliot, André Pretorius and the author, as well as some 200 plans of houses, sites and towns. Fransen travelled 25 000 km by car and a further 5 000 by bicycle to document buildings for this edition, which can now lay claim to being a near-complete record of all Cape architecture of a century and older in an area stretching as far north as Calvinia and as far east as Colesberg and Uitenhage. The classic work of reference on the subject.

## A Cape Camera

*A Cape Camera: The Architectural Beauty of the Old Cape. Photographs from the Arthur Elliot Collection in the Cape Archives compiled and introduced by Hans Fransen*

Of the 10 000 negatives in the Elliot Collection and a further 1 000 in the Morrison Collection, about 2 000 are of architectural subjects. These are regarded as Elliot's most valuable heritage. He documented the disappearing architectural scenery of the Cape with an unusual passion, and in the process also produced images of lasting beauty. Hans Fransen, with his extensive knowledge and informed insight, has selected 289 images and written an introduction and annotations that make the past come alive.
